Subject Re: FW: TSCA area photos [1]

Matt,

I spoke with Paul Bucholtz regarding your request to excavate the TSCA material after the non-TSCA material has been removed. Paul and I are amenable to this approach with the following understanding:

- 1) silt curtain will remain in place along the shoreline
- 2) silt fence will be installed onshore around the perimeter of the designated TSCA area
- 3) efforts will be taken to minimize disturbance to the existing vegetative cover
- 4) and, if an event occurs that disturbs/erodes the TSCA area, assessment efforts will be conducted to determine the impact.

If you have any questions or need further clarification please do not hesitate to contact me. Thank you.
